19th Biennial Seminar on Water Resources and Environmental Management

September 2-6, 2018 in Edinburgh, Scotland

Hosted by: The University of Edinburgh in conjunction with the 150th anniversary of their School of Engineering

Co-Sponsored by: ASCE Environmental and Water Resources Institute (EWRI), University of Wisconsin Green Bay (UWGB) & Universidad del Desarrollo (Chile)

A unique opportunity to interact with water resource/environmental professionals from around the world in a small group, informal setting and to experience this beautiful city and country.

Preliminary program:

- Sunday: Optional pre-seminar touring in Edinburgh
- Sunday Evening: Informal ice breaker get together
- Monday – Tuesday: Technical sessions
- Monday – Tuesday: Spouse program (e.g., Parliament, Holyrood, Botanical Gardens)
- Tuesday evening: Seminar banquet
- Wednesday - Thursday: Cultural and Technical tours

Sample technical program sessions:

- Sustainable river basin management.
- Climate change impacts and mitigation.
- Water supply & Waste Water Management
- Emerging technologies
- Water resources and environmental planning and education
- Computer tools for water resources and environmental analysis
- Other water and environmental related subjects

Seminar organizers:

- Walter Grayman (Consulting Eng.) - wgrayman@gmail.com
- Thalia Chatzisyneon (Univ. of Edinburgh) - E.Chatzisyneon@ed.ac.uk
- Andrea Semiao (Univ. of Edinburgh) - asemiao@ed.ac.uk
- Douglas Aitken (UDD, Chile) - daitken@udd.cl

This seminar is open to the entire water and environmental community

Additional information will be provided as details become available
